Step by Step Lessons

ARRANGEMENTS FROM AROUND THE WORLD

We went on a quest internationally to introduce you to 14 excellent floral designers who were confident enough to share their work with you. It was exciting and heart warming to see all the entries emailed as each Mother was honoured or remembered with love through the arrangements.

After successful selection the designers were asked to send in photos of how they made their tribute as a step by step lesson. As a result you now have a wonderful mix of styles and plant material from all over the globe to try for your own Mother on her special day.

THE CENTRE OF ATTENTION
The annual gardeners' ball in Prague comes to a halt as the performers from the floristry school in Lednice, the Czech Republic take over centre stage with their sensational floral costumes. This year the theme was Origami with flowers.
